PROFESSIONAL SUMMARY

Detail-oriented **Full Stack Developer** with experience in React.js, React Native, Node.js, and MongoDB, **Strong foundation in electronics and computers**, coupled with a demonstrated ability to rapidly learn and adapt to new technologies, including **C and C++**. Proven track record of delivering high-quality web and mobile applications within a short time frame, with three successful projects in just six months. Excited to leverage problem-solving skills, software development experience, and continuous learning.

SKILLS

Programing Languages : C, C++ and Java Script

Frontend : HTML5, CSS3, Bootstrap, React.js, Tailwind CSS, Redux

Backend : Node.js, Express.js

Databases: MongoDB

Other Skills : Git, GitHub, Postman

WORK EXPERIENCE

Full Stack Developer (React.js, React Native, Node.js, MongoDB)

May 2024 – Present

Analogue IT Solutions | Hyderabad, Telangana

- Developed and maintained dynamic web applications and mobile apps using React.js, React Native, and Node.js.
- Built efficient and scalable back-end solutions with Node.js, handling RESTful API development and database management with MongoDB.
- Created reusable components in React.js and optimized front-end performance through techniques like lazy loading and code splitting.
- Collaborated closely with cross-functional teams to deliver high-quality web and mobile apps, ensuring responsive design and seamless user experiences.
- Delivered three major projects (one web app and two mobile apps) within six months, demonstrating adaptability and fast-paced learning.

PROJECTS

AddTheAdds - <https://addtheadd.com/>

Technology Stack: React.js, Tailwind CSS

- Built a dynamic canvas tool where users can add and edit text, including features like font size, font family, font weight, text color, and background color adjustments.
- Integrated image uploads and allowed users to position text on the canvas through drag-and-drop functionality, creating a customizable design tool.
- Developed a layer management system, enabling users to select, reorder, and delete layers, which posed a major challenge in the project.
- Implemented options for saving and downloading designs as templates or images, ensuring smooth user interaction with templates for further editing.

GiftYU App

Technology Stack: React Native, Node.js, Express.js, MongoDB

- Full-stack development of a mobile app enabling users to create and manage gift events, with a back-end powered by Node.js and MongoDB, and front-end built with React Native.
- Implemented auto-deletion of ads based on expiry date, improving app performance and ensuring up-to-date content.
- Created a wishlist feature where users can automatically add their wishlists to events, simplifying the event creation process.
- Developed a feature for sending invitations by validating contact details through the back-end and notifying users of invitations.
- Implemented event lifecycle management by automatically moving past events to the history section and removing them from active invitations.

EDUCATION

Edyoda Technologies

Industry Ready Certification in Front End Development

B.V Raju college, **Bhimavaram**

2017 - 2020

Bachelor of Science(**Electronics and Computer Science**)
